

Praveen Mali

Full Stack Developer | Express • TypeScript • Node.js • MongoDB • React.js

📞 9571612594 | ✉ praveenwebdev9571@gmail.com | 🌐 PraveenMali9571 | 📄 praveen-mali | 📍 Udaipur, Rajasthan

PROFESSIONAL SUMMARY

Full Stack Developer experienced in building scalable web applications with **React.js, TypeScript, Node.js, Express.js and MongoDB**. Skilled in REST API design, JWT authentication, role-based access control, and monorepo architecture. RHCSA Certified with hands-on Linux administration experience.

EXPERIENCE

HelperSetu

Aug 2025 – Present

Full Stack Developer Intern

Udaipur, Rajasthan

- Contributing to **TeamUp**, a scalable HRM and collaboration platform managing teams, events and workflows
- Working across full-stack architecture using **React.js, TypeScript, Node.js** and REST APIs
- Developing reusable UI components using React, TypeScript and **Material UI**
- Implemented **multi-language translation support** for internationalization across the platform
- Working inside **Turborepo monorepo** architecture for scalable codebase management
- Integrated **AI workflows using LangChain** to power intelligent platform features
- Built reusable hooks, modular service layers and scalable frontend architecture
- Collaborating through **pull-request based GitHub workflows** and peer code reviews

Marvik Solutions Pvt. Ltd.

June 2025 – Aug 2025

Frontend Developer Intern

Udaipur, Rajasthan

- Developed responsive interfaces using **HTML, CSS, JavaScript and React**
- Improved UI/UX quality and collaborated on multiple real-world client projects
- Worked within Git-based collaborative development workflows and version control practices

Red Hat Inc.

Oct 2024 – Jan 2025

RHCSA Certified | ID: 240-209-627 | [Verify Certificate](#)

- Administered RHEL systems: users, permissions, storage and networking configuration
- Configured **SELinux, firewalld** and **systemd** services for production security hardening
- Automated tasks using **shell scripting** and basic Ansible playbooks

PROJECTS

Food Ordering System | *Node.js, Express.js, MongoDB, JWT, Swagger, Render*

[Live API](#) | [Swagger Docs](#) | [GitHub](#)

- Built a scalable **REST API backend** for a food ordering platform supporting authentication, menu management, cart handling and order workflows
- Designed modular backend with **layered architecture** (Routes → Controllers → Services → Models) for clean code separation
- Implemented **JWT-based authentication**, protected routes and **role-based access control** for admin and user operations
- Added **Swagger API documentation** for professional endpoint visualization and developer usability
- Applied centralized **error-handling middleware** with consistent API response structure and status codes
- Used **MongoDB aggregation queries** and optimized database operations for efficient data retrieval
- Deployed on **Render** with cloud-hosted API access and production-ready environment configuration

TeamUp | *React, TypeScript, Material UI, Turborepo, TanStack Query*

HelperSetu Internship

- Collaborated on scalable UI components within a **team-based HRM and collaboration platform**
- Built reusable and responsive interfaces using React and TypeScript inside **Turborepo monorepo architecture**
- Integrated AI-powered workflows using **LangChain** and optimized data fetching with TanStack React Query

SofaCare | *React.js, JavaScript, CSS, Vercel*

Frontend Project

- Developed a responsive **frontend website** for a sofa cleaning and furniture care service platform
- Built modern UI sections including hero banner, service showcase, contact flow and customer-focused landing page
- Implemented **animations and reusable React components** with clean section transitions for a professional feel
- Deployed on **Vercel** with production-ready hosting and routing configuration

EDUCATION

Mohanlal Sukhadia University

2022 – 2025

Bachelor of Computer Applications (BCA)

Udaipur, Rajasthan

SKILLS

Languages : JavaScript, TypeScript, HTML, CSS

Frontend : React.js, Tailwind CSS, shadcn/ui, Material UI, React Router

Backend : Node.js, Express.js, REST API Development

Database : MongoDB, Mongoose, Firebase

Tools : Git, GitHub, Postman, Swagger, Vercel, Netlify, Linux, Vim, VS Code, curl

Concepts : Authentication, API Design, Role-Based Authorization, DTO Validation, Middleware Architecture

ACHIEVEMENTS

Won quiz competition at **Google Developer Group (GDG)** event | LeetCode: leetcode.com/u/Praveen_mali
